Table shows all cigarette tax rates in effect now and those that will go into effect through July 1, 2010. Since 2002, 47 states, DC, and several U.S. territories have increased their cigarette tax rates more than 100 times. The three states in **bold type** have not increased their cigarette tax since 1999 or earlier. Currently, 29 states, DC, Puerto Rico, the Northern Marianas, and Guam have cigarette tax rates of \$1.00 per pack or higher; 14 states, DC, and Guam have cigarette tax rates of \$2.00 per pack or higher; five states and Guam have cigarette tax rates of \$3.00 per pack or higher; and one state (NY) has a cigarette tax rate more than \$4.00 per pack. Tobacco states are KY, VA, NC, SC, GA, and TN. States' average includes DC, but not Puerto Rico, other U.S. territories, or local cigarette taxes. The median tax rate is \$1.339 per pack. AK, MI, MN, MS, UT also have special taxes or fees on brands of manufacturers not participating in the state tobacco lawsuit settlements (NPMs).

The highest combined state-local tax rate is \$5.85 in New York City, with Chicago, IL second at \$3.66 per pack. Other high state-local rates include Evanston, IL at \$3.48 and Anchorage, AK at \$3.452 per pack. For more on local cigarette taxes, see: <http://tobaccofreekids.org/research/factsheets/pdf/0267.pdf>.

Federal cigarette tax is \$1.01 per pack. From the beginning of 1998 through 2002, the major cigarette companies increased the prices they charge by more than \$1.25 per pack (but also instituted aggressive retail-level discounting for competitive purposes and to reduce related consumption declines). In January 2003, Philip Morris instituted a 65-cent per pack price cut for four of its major brands, to replace its retail-level discounting and fight sales losses to discount brands, and R.J. Reynolds followed suit. In the last several years, Philip Morris, Reynolds American, and Lorillard have increased their product prices by almost \$1.00 per pack. **The U.S. Centers for Disease Control & Prevention estimates that smoking-caused health costs total \$10.47 per pack sold and consumed in the U.S.**

The average price for a pack of cigarettes nationwide is roughly \$5.33 (including statewide sales taxes but not local cigarette or sales taxes, other than NYC's \$1.50 per pack cigarette tax), with considerable state-to-state differences because of different state tax rates, and different manufacturer, wholesaler, and retailer pricing and discounting practices. AK, DE, MT, NH & OR have no state retail sales tax at all; MN & OK have a state sales tax but do not apply it to cigarettes; and AL, GA & MO (unlike the rest of the states) do not apply their state sales tax to that portion of retail cigarette prices that represents the state's cigarette excise tax.
